

# Gambrinus220

The Gambrinus220 is IMI Cornelius' most efficient dry cooler for undercounter locations. With its reliable cooling technology it is ready for peak dispense periods without long pre-cooling periods.

- Consistent in-glass temperatures
- Excellent build quality and cooling performance
- Instantly ready for use
- High dispensing capacity, available with two and four cooling coils
- Ergonomic design built in a high quality stainless steel finish

## Excellent qualities

- Ease of access to key components for improved serviceability
- Fountain dispensing made easy
- Superior performance for top requirements in the catering trade
- Ideal for events and mobile solutions

**Performance:**

Amount of product dispensed in the first hour with a  $\Delta T$  of:

**10°C: 220 litres**  
 20°C: 110 litres  
 30°C: 73 litres

Maximum ambient temperature: 32°C  
 Heat emission: 3500 watts

**Weight:**

Equipment weight: 104 kg  
 Packed weight: 108 kg

**Electrical:**

Mains supply: 230 v / 50 hz  
 Power consumption: 1300 watts  
 Supply: 2 m mains cable  
 euro style plug

**Refrigeration:**

Compressor: 35 cc / 1 hp  
 Compressor duty at 0°C evaporation: 2326 watts  
 Cooling performance continuously: 2560 watts / 2200 kcal

**Product coils:**

Material: Stainless steel  
 Number of coils: 2 or 4  
 Length of coils: approx. 15m  
 Diameter (internal/external): 7/8mm or 10/11mm

**Control type:**

Electronic thermostat

**Compliance To Standards And Legislation**

All coolers comply with Brewers Society Code of Practice for Electrical Safety in Beer Dispense in Licensed Premises. Designed to EN60335 part1 (Safety of Household and Similar Electrical Appliances-General Requirements). Product coils are made from 304 stainless steel. Product complies with the current EMC Directive.
