

A new flexible approach to your payment solution needs

You've never seen anything like Currenza. Now, your vending machine can dispense and pay out the same bills it receives. The Currenza recycler can store up to 30 bills (programmable), \$1's or \$5's - the choice is yours. The unit is universal and flexible. Now you can feel better about accepting higher denomination bills without the worry that your coins will be depleted. Currenza is a superior solution for your customers versus stand alone bill changers.

Currenza Coin Mech

- 4-tube changer for optimal coin capacity
- All cassette tubes are self-filling, with multiple configuration options
- Accurate and reliable coin sensing technology
- MDB compatible with any MDB validator
- Accepts \$.50 coin and routes to cash box, eliminating costly service calls
- Reliable stainless steel payout dispenser
- Tilt coin cassette for easy loading and service

Currenza Bill Validator

- Accepts \$1 thru \$20 standard (selectable)
- Validator MDB compatible with any MDB coin mech
- Coupon capable
- Quick & simple configuration changes or firmware updates via BlueChip™ sim card
- Lightweight, removable, drop resistant 400-bill cash box (higher capacities available)

Currenza Recycler

- Recycles and stores 1 - 30 bills (operator selectable)
- LED display on back of recycler for recycler contents and float settings
- Load and unload service buttons to manage recycling cassette
- Accepts \$1 thru \$20 standard (selectable)
- Coupon capable
- Quick & simple configuration changes or firmware updates via BlueChip™ sim card
- Lightweight, removable, drop resistant 400-bill cash box

LED Display
Recycler LED screen indicates number of bills in recycler - keeping your auditing under control. Load and unload buttons make emptying unit a breeze.

BlueChip™ Technology
Using Crane's BlueChip™ technology, operators can upgrade firmware in seconds.

Leading Vending Evolution
