

Vitalize460

Vitalize460 from IMI Cornelius, (formerly known as LVU2) blends pre-set doses of water and concentrate to create delicious chilled fruit juices.

The Vitalize460 can house standard canisters and boxed bags of shelf stable concentrate with a capacity of 6 litres and its pumps enable it to dispense particularly pulpy products. The water tank can be auto-filled from the mains, giving large capacity

Electronic dosing system guarantees a precise mix of concentrate and water ensuring excellent beverage consistency.

Key features include:

- Simple to use
- Easy to install
- Mains connectable water tank
- Mixing system by pressure in order to guarantee a perfect products dilution
- Unit can also dispense jugs
- Simple and hygienic concentrate re-stocking

Size and capacity:

No. of concentrates:	2
Concentrate capacity:	6 litre canister (total 12 litres)
No. of mixing chambers:	2 (1 per concentrate flavour)
Water tank:	6 litres - manual refill or mains connected
Weight unpacked:	40 kg
Weight packed:	45 kg

Refrigeration:

Compressor size:	8 cc
No. of compressors:	1
Refrigerant type:	R134a
Refrigerant charge:	106g
Condenser type:	Copper-Aluminium
Ice bank weight:	1.5 - 2kg

Electrical:

Unit power rating:	500 Watts
Mains supply:	230 v, 50 Hz, 1 ph
Run current:	2.2 Amps
Plug connection:	Euro- Schuko plug, 3 pin UK plug
Mains cable:	2.5 metres

Technical:

Controls:	- Mechanical push button dispense - Mechanical dosing giving precise control of concentrate
Max. ambient temp.:	38°C
Housing type:	Painted steel
Drip tray:	Plastic / Stainless Steel

Options:

Bag in box connections
