

Vitalize830

Vitalize830 from IMI Cornelius (formerly known as CR4 Aqua) is a stylish water dispenser which is designed to supply organisations and venues with fresh drinking water. The unit is connected to the mains water line which ensures the Vitalize830 is always ready to dispense a perfectly chilled and refreshing glass of water.

Key features include:

- Choice of chilled and carbonated water
- The unit offers an icebound operation, allowing the use in smaller canteens with peak demands
- A cabinet stand following the unit design is optional
- The housing is completely made out of stainless steel
- The driptray offers a large capacity and is removable for cleaning
- The manual taps allow easy filling of bottles

Performance:

Amount of product continuously dispensed per hour with a ΔT :

6°C:	26 litres
10°C:	16 litres
20°C:	8 litres

Maximum ambient temperature: 32°C

Cooling performance: (at 0°C evap. temp.) 180 watts (155kcal)

Weight:

Equipment weight: 26 kg
Packed weight: 28 kg

Electrical:

Mains: 230 volts / 50Hz
Power consumption: 260 watts
Supply: 2m mains cable
euro style plug

Refrigeration:

Compressor: 5cc

Product coils:

Material: Stainless Steel
Number: 2
Length of coils: 7-8m
Diameter (internal/external): 7mm ID/8mm O.D.

Control type:

Electronic thermostat
