Unrivalled drinks quality and choice!

The choice of drinks available from the Vision Xtra is unlimited, even drinks containing sugar can be dispensed. Every selection button is configurable to any mix of the ingredient canisters, developing any drinks combination to suit customers' needs in a choice of cup, mug or jug size.

Optimised drinks presentation is achieved through control of the whipping time within the drink mixing cycle enhancing the drink quality even further.

Authentic espresso and speciality drinks...

...made to perfection!

The Vision B₂C (Bean to Cup) combines the convenience of a fully automatic beverage machine with advanced espresso technology and soluble products. This combination provides today's discerning consumer with the superior taste that only freshly ground coffee can offer, along with espresso based speciality drinks.

The machine features a backlit graphics display area to maximise branding opportunities, visible fresh coffee bean container and a "positive feel" single button drink selection keypad.

Vision Xtra

Stylish "front of house" solution!

The stylish **Vision Xtra** range of table top beverage systems offers the perfect 'front of house' solution for restaurants, hotels, bars and offices. The two models available provide customers with a comprehensive drinks choice of either 9 or 11 selections.

Outstanding build quality and proven reliability are inherent in Vision Xtra beverage systems and when combined with quality ingredients, good service and filtered water, they provide high quality drinks, satisfied customers and increased profits

So, select your favourite, push the button, and enjoy the experience!

Base Cabinets

For sites where no counter top is available an optional base cabinet can be provided which is perfect for providing storage space for ingredients. Base cabinets are available in various sizes to accommodate Vision machines with and without a condiment stand or payment module.

Coin & Card Module

For customers who require the additional versatility and control that coin and card systems can bring to their beverage installations, Vision Xtra machines can be supplied with a coin/card module.

The factory fitted module will accept most of the industry's leading coin or card systems.

Branding Opportunities

Offering branded products provides strong point-of-sale impact that keeps customers coming back for more. Vision machines provide the perfect platform to attract these increased sales which in turn lead to increased profits!

Large backlit graphic areas as well as the drink selection decals, provide ample branding opportunities, increasing customer confidence and promoting sales.

Backlit Display Panel

Vision Xtra machines feature backlit display graphics which provide immediate visual appeal.

Bespoke graphics can be supplied as a build to order option further increasing the versatility of the machines.

Single Button Drink Selection

Simple, single button drink selection makes Vision machines ideal for self service locations ensuring customers receive their chosen beverage quickly and to the highest quality.

Jug Facility

Vision Xtra machines offer a choice of 2 jug extensions; the standard version allows a 1.8 litre jug to be used whilst a tall version is available for use with most types of continental style jugs.

The Vision B₂C Advantage:

- Dual grinder, boiler and pump system ensures equipment down time is kept to a minimum in the event of component failure
- 1.4 kg. coffee bean capacity stored in visible container with lockable lid
- Consistent drink quality with every vend reduces the need for training and skilled operators
- 150 bean to cup capacity
- 5 - 15 grams ground coffee dispense
- Durable stainless steel construction
- Full drink audit facility
- Self clean function ensures hygiene standards are maintained between routine cleaning schedules

Vision machines can be matched with a custom designed condiments unit (shown above) to offer a complete front of house solution.

Why choose Vision Xtra?

- Drink selection flexibility guarantees a wide choice of quality beverages
- Simple, user friendly single button drink selection
- Optimised drink presentation through whipping time control
- High speed dispense - black coffee in 6 seconds
- Jug facility eliminates the need for separate beverage facilities
- Stylish machine with small footprint and backlit display panel
- Operator friendly! Easy to clean, fill and maintain
- Free vend or choice of payment systems

"...comprehensive drinks choice from machines offering either 9 or 11 selections..."
